

**mycq.co.nz**

## So what's MYCQ?

MYCQ gives you your own personalised web storefront into CQ.

We will setup a completely unique website for your business to make the whole print process fast, easy & personalised.

It's cool and it's **free!**

Go to our full store at [mycq.co.nz](http://mycq.co.nz)

**See our demo sites to see how best to set up your personalised storefront**

*Here are some examples:*

*The fastest way to send us a job (even a massive file)*

*Have your files checked when you upload them*

*Ideal if you're in the building sector and regularly print plans*

*This makes ordering or creating new business cards easy*

**- or any combination of these. MYCQ is all about making the whole print experience easy & personalised to your needs.**

## The Benefits of MYCQ

- You can simply send to CQ massive files up to 500MB, no need to install programs on your computer & no security risks.
- Notification emails sent on receipt of your order, completion of your order and tracking of where your job is on the way through.
- Full order history.
- The option of preflighting (checking) your files, this can check for possible problems with your files and alert you to this.
- Visibility of CQ's extensive paper range.
- Security around your company's users and their individual rights.
- A re-order option for repeat orders.
- Files are saved on MYCQ for 3 months or longer on CQ's server if required.
- We can set your store front up so purchase order numbers are mandatory.
- Add your CQ quote to your order.
- Fully customisable website interface.
- It's free with free training provided by CQ.
- You can even have multiple storefronts e.g. one for uploading files and one for business cards.
- Full business card builder with pdf proofing.
- Plus heaps more.
