Swing by to check out a sample in our showroom.

MAX

STRENGTH	<div></div>
HIGH WINDS	<div></div>
PRIVACY	<div></div>
PRINT QUALITY	<div></div>

Max is your go to product for quality images. It's close weave gives you maximum privacy and a bigger surface area for lots of ink - more detail and brighter colours.

SIZES AVAILABLE

1.8m high x 50m length rolls.
Custom cut panels - 1.8m high x required length.

LITE

STRENGTH	<div></div>
HIGH WINDS	<div></div>
PRIVACY	<div></div>
PRINT QUALITY	<div></div>

Lite is the mesh with the best of both worlds, a bit of Max and a bit of Flow. You'll get pretty good privacy and a fair amount of wind can pass through. You won't get fine detail, but the image quality is on the money and colours retain their vibrancy.

SIZES AVAILABLE

1.8m high x 50m length rolls.
Custom cut panels - 1.8m high x required length.

FLOW

STRENGTH	<div></div>
HIGH WINDS	<div></div>
PRIVACY	<div></div>
PRINT QUALITY	<div></div>

Flow is our most popular fence mesh, being the most comparable product to it's inferior cousin Shade Cloth. The open weave lets ample wind through, but in doing so, sacrifices a bit of image detail and vibrancy. That said, it is a stunning product that will serve you well.

SIZES AVAILABLE

1.75m high x 50m length rolls.
Custom cut panels - 1.75m high x required length.
